

Quik

WHITEPAPER

a marketplace for blockchain based
NFT domains.

ABSTRACT

Quik.com is a market platform solution for the trade of blockchain based NFT domains. The domain name industry is all set to touch the 1000B dollar mark by the year 2027 according to experts. Additionally the NFT market reached a whopping 22B dollars this year and will continue to skyrocket in the upcoming years. All of these markets portray escalating potential by the end of each day.

The domain name industry, while being massively successful and booming, suffers from problems like lengthy payments, delays in delivery and unavailability of a transaction history. These hindrances can be the cause of slowing down its growth. Here is where Quik.com will enter with a solution. It will be a P2P marketplace for domain names as well as blockchain based NFT domains with all transactions happening in blockchain. This will ensure efficient transactions as well as a completely transparent process with a complete transaction history available at all times.

Quik.com targets to become the #1 domain name market and a platform for the listing, purchase and sale NFT domain names. Our vision is to provide a transparent platform through the inculcation of blockchain transactions where anyone can list, sell and buy nft domains in a pleasing experience as a whole.

All transactions on the platform will occur in ETH, BNB or QUIK over protocols such as ETH-721, 1155 and BEP-721, 1155 after the launch. Later on, with the passing of time, more protocols will be added accordingly. In addition to these, the QUIK tokens will help ease transactions even further and even provide advantages and rewards to frequent users.

The advantage of Quik.com over its domain name competitors would be that it will be a dedicated blockchain transaction platform, a first of its kind to breach the domain name industry.

Risk Disclaimer: Buying QUIK Tokens involves substantial risk of loss and is not suitable for every investor. The valuation of the QUIK Token may fluctuate, and, as a result, clients may lose more than their original investment and can even result in total loss of capital. Before deciding to buy/swap QUIK Tokens, you should carefully consider your investment objectives, level of experience, and risk appetite.

OUR PITCH

Quik: Open Blockchain Market for Domain Name Trade

According to industry experts, the domain name market is on course to reach \$1000 billion in revenue by 2027. Although it is still in its early stages, experts predict that the commercial value of the Metaverse will reach up to \$870 billion by the year 2028. Additionally, the NFT market hit a mind-boggling 22 billion dollars this year and is likely to continue rising at an exponential rate in the next years, according to analysts. By the end of each day, all of these markets have demonstrated an increase in their growth potential.

Despite the fact that the domain name industry is extremely popular and expanding, it is beset by challenges such as lengthy payments, delivery delays, and the absence of transaction histories. These barriers may have an impact on the slowing of the industry's overall growth. This is where Quik.com comes in with a solution to the problem. With all transactions taking place on the blockchain, it will function as a peer-to-peer NFT domain marketplace. This would allow for more efficient transactions, as well as a completely transparent method with a transaction history that is always available to the user.

Quik.com aspires to be the world's largest nft domain name marketplace. Our objective is to create a transparent platform through the incorporation of blockchain transactions that allows anybody to list, sell, and buy digital goods in a pleasant environment.

With a robust roadmap with well defined steps and proactive marketing strategies, Quik.com will fill in a void in ways that will be beneficial to the entire industry as whole.

Quik.com will serve as the perfect solution towards blockchain based P2P trading involving digital assets of various kinds. With a dedicated team working behind it at all times, Quik.com will become a major competitor in the industry in the years to come after its launch.

The information set below may not be exhaustive and does not imply any elements of a contractual relationship. While we make every effort to ensure that any material in this whitepaper is accurate and up to date, such material in no way constitutes the provision of professional advice. QUIK.com does not guarantee, and accepts no legal liability whatsoever arising from or connected to, the accuracy, reliability, currency, or completeness of any material contained in this Whitepaper. Potential QUIK Token holders should seek appropriate independent professional advice prior to relying on, or entering into any commitment or transaction based on, material published in this paper, which material is purely published for reference purposes alone.

QUIK.com does not provide any opinion on any advice to purchase, sell, or otherwise transact with QUIK Tokens and the fact of presentation of this paper shall not form the basis of, or be relied upon in connection with, any contract or investment decision.

No person is bound to enter into any contract or binding legal commitment in relation to the sale and purchase of QUIK tokens, and no cryptocurrency or other form of payment is to be accepted on the basis of this paper.

Regional Restrictions:

You are not eligible and you are not to purchase any QUIK tokens if you are a citizen or resident (tax or otherwise) of Singapore, or other Singapore Person. "Singapore Person" is generally defined as a natural person, residing in the Singapore or any entity organized or incorporated under the laws of Singapore.

You are not eligible and you are not to purchase any QUIK tokens if you are a citizen or resident (tax or otherwise) of the People's Republic of China („PRC“), or other PRC Person. „PRC Person“ is generally defined as a natural person, residing in the People's Republic of China, or any entity organized or incorporated under the laws of the People's Republic of China.

Furthermore because of current regulatory uncertainty and before additional information is publicly released by the Platform on the matter, green card holders of the United States or citizens or residents (tax or otherwise) of the United States of America, Singapore or China, or other U.S., Singapore Person or PRC Person, are not eligible to register for the Token Sale. That limits the ability of U.S., Singapore, PRC persons to utilize QUIK tokens and participate in the future development of the platform as well as in the distribution of proceeds.

You are not eligible and you are not to purchase any QUIK tokens if you are a citizen or resident (tax or otherwise) of the Republic of India or India, or any entity organized or incorporated under the laws of the Republic of India.

INTRODUCTION

DOMAIN NAMES

What is a Domain Name?

A domain name is a string of text that maps to a numeric IP address, used to access a website from client software. In plain English, a domain name is the text that a user types into a browser window to reach a particular website. For instance, the domain name for Google is 'google.com'.

The actual address of a website is a complex numerical IP address (e.g. 103.21.244.0), but thanks to DNS, users are able to enter human-friendly domain names and be routed to the websites they are looking for. This process is known as a DNS lookup.

Who manages Domain Names?

Domain names are all managed by domain registries, which delegate the reservation of domain names to registrars. Anyone who wants to create a website can register a domain name with a registrar, and there are currently over 300 million registered domain names.

What's the difference between a domain name and a URL?

A uniform resource locator (URL), sometimes called a web address, contains the domain name of a site as well as other information, including the transfer protocol and the path. For example, in the URL 'https://cloudflare.com/learning/', 'cloudflare.com' is the domain name, while 'https' is the protocol and '/learning/' is the path to a specific page on the website.

NON FUNGIBLE TOKENS

What are Non Fungible Tokens?

Non-Fungible Tokens or NFTs are cryptographic assets based on blockchain technology. Unlike cryptocurrencies, fungible tokens are identical; NFTs come with unique identification codes and metadata that differentiate them from one another. Hence, they cannot be used as a medium for commercial transactions or exchanged at equivalency.

The distinct construction of each NFT has several potential use cases. Its most prominent use cases include a digital representation of physical assets such as artwork and real estate.

Furthermore, since NFTs are based on blockchains, they can remove intermediaries and create new markets that directly connect artists with audiences. NFTs can also be used for identity management.

NFT Stats

NFTs have been around for less than a decade and have become a new way to prove ownership over digital goods.

They have recently gained prominence in the art market. One NFT sold in 2020 valued at nearly 69 million USD, making it one of the most expensive digital item traded on any platform in history.

Every week, about 0.01 to 20 million USD worth of NFTs are sold in the Blockchain. The total value of NFT sales stood at approximately 250 million USD last year.

BLOCKCHAIN TECHNOLOGY

What is blockchain?

A blockchain is a distributed database stored electronically in a digital format and shared among the computer network nodes. It is best known for its critical role in cryptocurrency systems such as Ethereum and Bitcoin for maintaining a decentralized and secure transactions record.

The innovation of Blockchain is that it assures the security and fidelity of a data record, generating trust without any trusted third party. It consolidates information in groups, called „blocks“ that contain information sets. Blocks have certain storage capacities and, when full, are closed and linked to the previously filled block. It creates a chain of data called the „Blockchain.“

All new data that follows that newly added block has compiled into a newly made block added to the chain once saturated.

Distributed Ledger

A distributed ledger is a set of information consensually shared and synchronized across multiple geographies, institutions, or sites, accessible by multiple users. It allows transactions to have public „witnesses.“

The participant at each network node can access the records shared across the network and own an identical copy of it. Any additions or changes made to the ledger are reflected and copied to all participants in a matter of minutes or seconds.

It stands in contrast to a centralized ledger, which is more prone to fraud and cyber-attacks because of its single point of failure.

CHALLENGES IN DOMAIN INDUSTRY

The domain name industry goes back into the late 20th century. However, there are many challenges in the sector that still need to be tackled.

Every time a user interacts with the internet, DNS, Domain name system allows users to turn domain names such as „Quik.com“ into useful IP addresses like „141.101.184.125.“ While users are more likely to remember the former, the computer needs the latter. In short, DNS offers the mapping function between addresses and names. It is like a phone directory that allows users to look at anyone's phone number from their name or vice versa.

It is operated as per rules established by the ICANN, Internet Corporation for Assigned Names and Numbers. It is also the organization that approves new TLDs, top-level domains like .com.

The system is hierarchical, with its root containing a single point of failure. It has a central database where even a single unpleasant incident can take down a huge chunk of the internet. With the introduction of blockchain technology, this can be changed.

Why do people buy domain names? A better domain name lowers the lifetime marketing costs of a business; however, the most challenging part of shifting a business online or starting a new online business is finding the domain name matching the current company/startup's name or finding a short, good-sounding, and easy-to-remember domain name for a new brand.

Another challenging part of buying a good and expensive domain name is that most of the domain marketplaces still use old traditional payment methods with many limitations, such as credit card limits, bank policies, chances of theft, and others.

Quik plans to overcome all these challenges by introducing NFT Domain Names, Quik plans to record the ownership, sale/purchase of such digital assets on the most advanced technology available on the internet today, i.e., Blockchain.

Since all the transactions happen on the Blockchain, it remains transparent, permanent, and secure. Marketplaces like Quik also allow users to directly connect with prospects, removing any need for third parties.

BLOCKCHAIN NFT DOMAIN NAMES

A short .com domain name is a rarity today. Some recent examples indicating the height of the domain names market include the sale of Business.com for a whopping 345 million USD and Carlnsurance.com for about 49.7 million USD.

For instance, if you have purchased xyz.com (domain name), you actually don't own it; instead, you have only rented it from a domain registrar. But, that's not the case with blockchain-based domain names.

Blockchain is a distributed data store with a state of consensus. Every network node agrees on a fact with minimal reliance on any central authority. The emerging blockchain-based domain names offer increased security and flexibility, and it also increases a domain name to tailor itself for specific niches to a large extent.

With the conventional method, registries had to take approval from the ICANN. Instead, with blockchain technology, they can draft the operational rules as per their market needs. Arguably, the viability of the variable pricing schemes also gets increased.

Moreover, it removes compliance fees and expensive interaction with ICANN. Hence, migrating domain names to the Blockchain can reduce hefty operating costs.

The rise of complementary solutions to DNS, particularly ENS, Ethereum name service, allows Blockchain to integrate with the traditional DNS. Meaning, domain name holders can prove their DNSSEC registration. It allows them to register the same name on the blockchain service, which helps in curbing the cases of cybersquatting.

Traditional payment methods are being replaced with modern ones such as cryptocurrencies, and today, making payments with cryptos such as Bitcoin, ETH or BNB is far quicker and easier than any traditional payment system, and since all the cryptocurrency transactions happen on the Blockchain, it remains transparent, permanent, and secure, allowing users to directly connect with prospects, removing any need for third parties.

DOMAIN NAME MARKET ANALYSIS

Forecasts suggest that the worldwide domain name market will reach over 1,025 billion USD by 2027 with a 4.70% CAGR.

As of January 2021, the internet concentration worldwide stands at about 59.5% of the global population. With the pandemic acting as a catalyst for the domain name market, it went to soaring heights in 2020. It prompted experts to revise their projection for the domain name market size to 512.3 million domain registration from 343.1 million by 2027 at a 5.9% CAGR.

The registration of blockchain domain names is also at an unprecedented speed. The registration rate as of May 2021 was more than 500% YoY, with no sign of slowing down.

So far, ENS has hit a market cap of more than 1 billion USD.

(Total volume of ENS sales made, Source: NonFungible)

NFT MARKET ANALYSIS

In 2020, the NFT market tripled, with the total sales volumes traded in NFTs reaching 250.84 million USD from 159.14 million USD in 2018.

The total number of active wallets, crypto wallets that interacted with an NFT Smart Contract, increased from 110,552 wallets in 2018 to 222,179 wallets in 2020, a 97.09% increase from 2019.

Last year there were more than 74,529 NFT buyers and over 31,504 NFT sellers. There has been a considerable leap in the market cap for international transactions to 338.04 million USD in 2020 from 40.96 million USD in 2018.

Quik

QUIK.COM

Quik.com is a marketplace for blockchain based NFT domain names. Users can trade these assets with ETH, BNB or QUIK.

We believe the domain name industry combined with the blockchain infrastructure can raise endless opportunities.

Blockchain domain names have the power to change people's perception of domain name ownership. The combination further adds a layer of transparency, permanent ownership, functionality, and security.

Domain names had prevailed in the crypto market long before the emergence of crypto punks and other NFTs clogged up the blockchain platforms. Moreover, in a way, they still dominate it.

At present, over 59.5% of the world population access the internet. Estimates suggest that the domain name industry will reach over 1k billion USD by 2027.

Yet, as discussed, the traditional domain name industry has myriad challenges, and Quik.com plans to tackle them all.

We focus on connecting domain sellers and buyers on the platform in the most convenient way possible and plan to record such transactions between the buyers and the sellers on a distributed P2P (Peer-To-Peer) system validated by network participants. The cost-effective, quick, and transparent blockchain-based transactions make Quik a unique and modern platform.

The nexus at which Quik is currently sitting has the potential to build a different kind of incentive structure. It will usher in a new era where users hold control over their data.

There are many use cases of blockchain domain names. It includes but is not limited to building decentralized websites, online portals, connecting them to other social media accounts, and setting real-time communications.

Likewise, with crypto and Metaverse entering the mainstream at a gradual pace, the blockchain-based domain names are set to witness high demand and growth.

We look at blockchain domain names as the gateway to NFTs, with various opportunities rising with it. Therefore, we are dedicated to empowering users and businesses to enter the market with our fast, cost-effective, and secure infrastructure.

MISSION OF QUIK.COM

Easy payment
system

Quik Marketplace

Quick
payments

We aim to be a gateway for the Web 3.

New-era businesses are moving away from Web 2.0, a centralized system, to a more secure, decentralized, permissionless, scalable, permanent, and easily transferable Web 3.0.

Quik.com will enable users to trade digital assets including domain names and blockchain based NFT domains with ease. The emergence of the decentralized web allows people to own their digital assets and data. In other words, it allows people to reclaim their freedom which was they had to give up while jumping from Web 1.0 to 2.0.

While experts are still uncertain about how the internet would evolve and move towards decentralization, there is a unified agreement that it would eventually become a ubiquitous part of our existence.

We see the rise of blockchain domain names as an opportunity to build the internet free from its present constraints.

QUIK TOKEN

The QUIK token is initially a BEP20 & ERC20 token on the Binance Smart Chain as well as Ethereum chain.

The QUIK token will be essential for its system to function and will be independent of any cryptocurrencies.

It will be an unit of value within our system.

QUIK Tokenomics

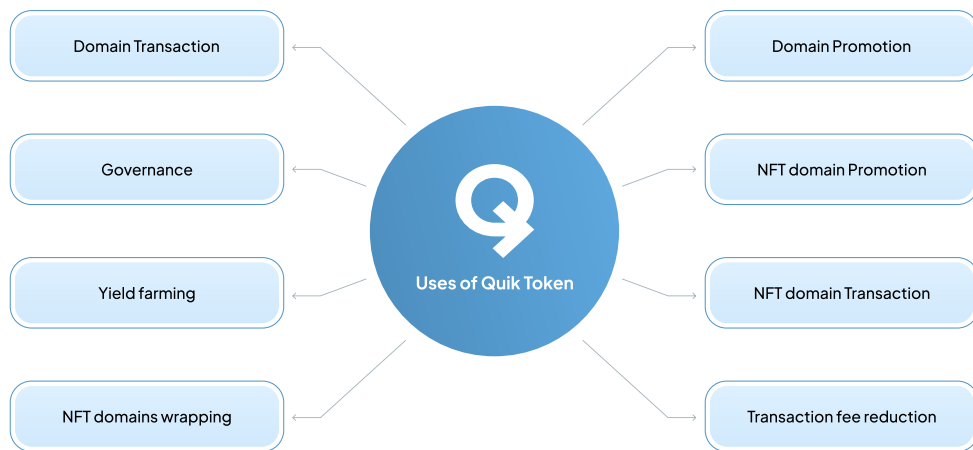

Total supply of QUIK - 400 mil
Initial supply of QUIK - 160 mil

VC/Private Sale Allocation - 10% of total tokens
Public Token Sales Allocation - 35% of total tokens
Team - 10% of total tokens
Advisors - 7% of total tokens
Marketing, Community Incentivization and Partnership - 25% of total tokens
Liquidity pool on Uniswap & other DEXes - 3% of total tokens
Company reserve - 10% of total tokens

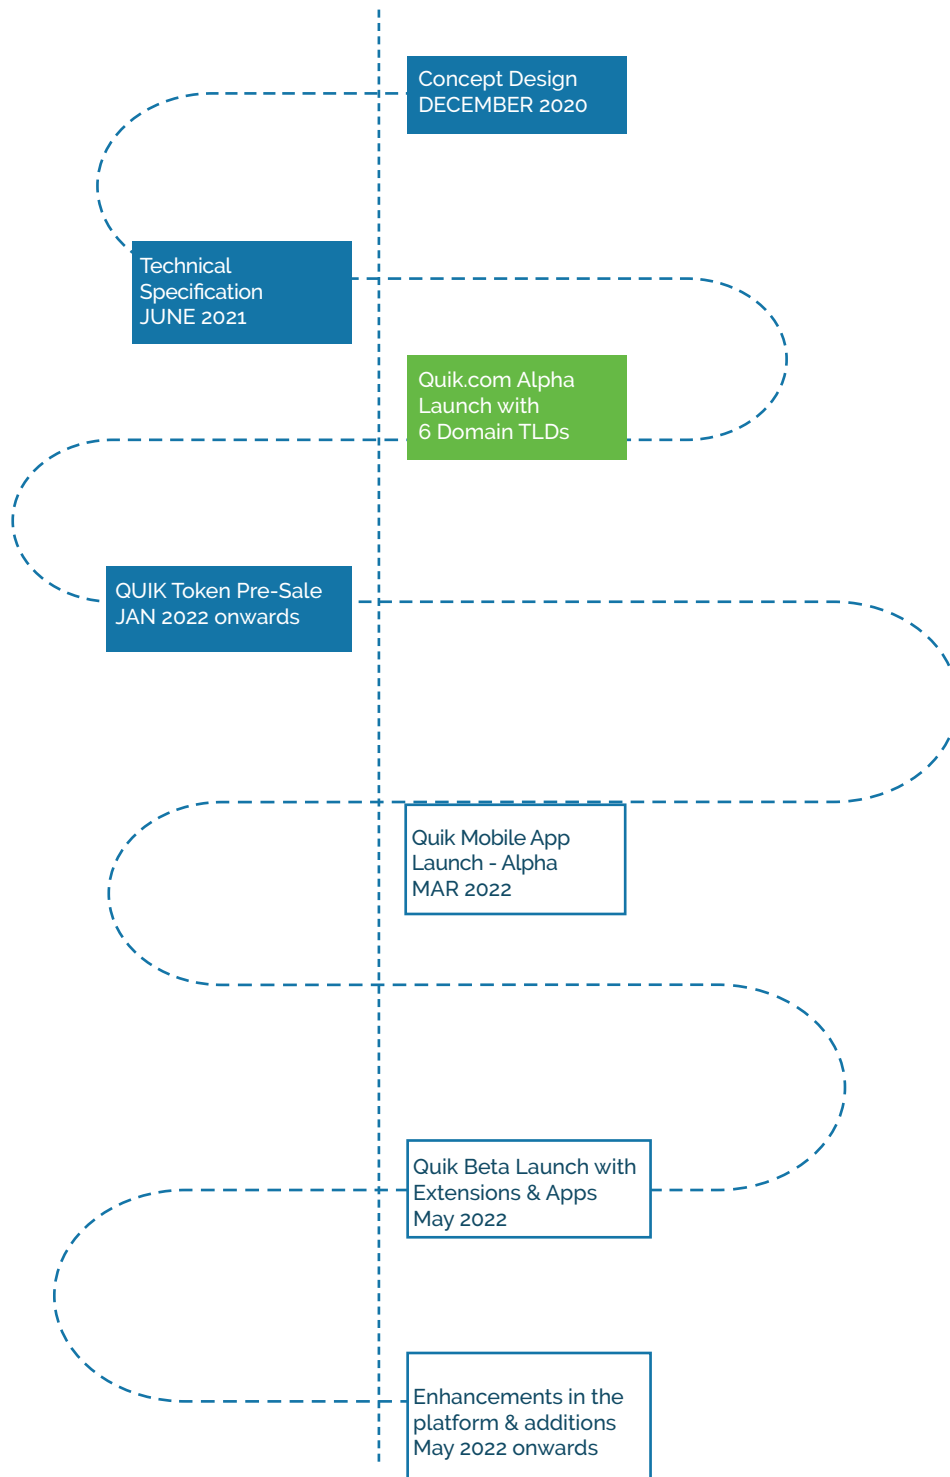

USAGE OF QUIK TOKEN

The QUIK token is a utility token that will be used on the Quik.com platform. Through it, users will be able to gain access to the Quik ecosystem that will bring forth a plethora of advantages.

TECHNICAL ROADMAP

RISKS

Quik.com platform users should carefully read all the information, understand and analyse the risk related factors, before deciding to participate in the investment and purchase of QUIK tokens.

The purchase and any other acquisition of QUIK tokens carries with it significant risk. Prior to participation, carefully consider the potential risks and, to the extent necessary, consult a lawyer, accountant, and/or tax professional to evaluate the risk entailed. Do not overcommit.

We make no promises of possible gains or returns. You can potentially lose all your money if the market price drops to zero. QUIK tokens are BEP20 tokens on the Binance Smart Chain. You must access and use them using an BEP20-compliant wallet. It is your responsibility to not lose your tokens.

This is early-stage project finance. The team is unproven. The market is unpredictable. It is possible that even if the sale threshold is met, funds won't be sufficient to feasibly develop the Quik.com system or there could be enough execution error to cause the project to fail. By holding QUIK Token, the acquirer acknowledges that he/she understands that while every effort will be made to execute Quik.com's vision for the Quik.com platform system, it is possible that it will never be realized.

Cryptocurrencies and project financing through cryptocurrencies have been the subject of regulatory scrutiny by various regulatory bodies around the world. Quik.com and the Quik.com project may need to change their operations to comply with applicable regulation, and they may become subject to licensing requirements. QUIK tokens could be impacted by one or more regulatory actions or regulatory enforcement, which could impede or limit the ability to continue to develop the QUIK platform. This uncertainty significantly adds up to risks connected with the acquisition and use of QUIK tokens. Quik.com will make effort to adopt its practices to accommodate regulatory needs and changes as they occur.

The field of digital cryptography is very new and for this reason there is a risk of unforeseen attacks on several or all parts of the Quik.com platform and system.

Owing to the market prospective, holding and purchasing QUIK tokens can be a risky and speculative investment. By purchasing, holding and using QUIK Tokens, the user, investor or anyone holding the token clearly recognize and presume the risks which are likely to be:

- 1 Risk of losing access to QUIK Tokens due to loss of Private keys, or any kind of custodial or purchaser errors.
- 2 The user needs to have a private key, or a combination of private keys, which is necessary to control and dispose of QUIK Tokens stored in your digital wallet.
- 3 Because of Owing to the market risks and unprecedented nature of the crypto world, the investments can become zero.
- 4 The funds raised in the token generation event are exposed to risks of theft.

- 5 QUIK Token can be significantly and unfavorably affected, if it fails to efficiently administer its procedures, as its business builds up and progresses, which would have a straight blow on its capability to maintain the Quik.com platform or even to launch any other future platforms.
- 6 Risks arising from lack of governance rights or any changes made to put restrictions over the cryptocurrency utilization.
- 7 Risk of mining attacks, uninsured losses, from taxation, uncertain regulations and enforcement actions, associated with markets for QUIK tokens etc.
- 8 Risks arising from dissolution of the company, unfavorable fluctuation of Bitcoin, BNB values, hacking, cyber attacks and security weaknesses
- 9 Risks associated with the Binance Smart Chain protocol, because QUIK tokens are based on the Binance Smart Chain protocol, any malfunction, breakdown or abandonment of the Binance Smart Chain protocol may have an adverse effect on the platform or QUIK Tokens.
- 10 General global market and economic conditions may have an adverse impact on QUIK's operating performance, results of operations, and cash flows.
- 11 Investing in Quik.com's Pre Token Sale and Token Sale can be risky because of the uncertainties in the initial stages.
- 12 QUIK token holders can lose their investments if owing to the QUIK tokens falls to zero, by any means of market forces.
- 13 The risks related to the Token sale investments should be carefully analysed, and speculated correctly, so as to avoid any hassles after or during the Token Sale stages.

NOTICE, TERMS & CONDITIONS, AND DISCLAIMER

The QUIK tokens are not intended to constitute securities in any jurisdiction. This Whitepaper/Website does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction.

No person is bound to enter into any contract or binding legal commitment in relation to the swap of the QUIK tokens and no cryptocurrency or other form of payment is to be accepted on the basis of this Whitepaper/Website.

The information set below may not be exhaustive and does not imply any elements of a contractual relationship. While we make every effort to ensure that any material in this whitepaper/website is accurate and up to date, such material in no way constitutes the provision of professional advice. Quik.com does not guarantee, and accepts no legal liability whatsoever arising from or connected to, the accuracy, reliability, currency, or completeness of any material contained in this whitepaper/website. Contributors and potential QUIK token holders should seek appropriate independent professional advice prior to relying on, or entering into any commitment or transaction based on, material published in this whitepaper or website, which material is purely published for reference purposes alone.

Quik.com does not provide any opinion on any advice to purchase, sell, or otherwise transact with QUIK tokens and the fact of presentation of this whitepaper/website shall not form the basis of, or be relied upon in connection with, any contract or Contribution decision.

No person is bound to enter into any contract or binding legal commitment in relation to the swap or purchase of QUIK tokens, and no cryptocurrency or other form of payment is to be accepted on the basis of this white paper.

Regional Restrictions:

You are not eligible and you are not to purchase any QUIK tokens if you are a citizen or resident (tax or otherwise) of Singapore, or other Singapore Person. "Singapore Person" is generally defined as a natural person, residing in the Singapore or any entity organized or incorporated under the laws of Singapore.

You are not eligible and you are not to purchase any QUIK tokens if you are a citizen or resident (tax or otherwise) of the People's Republic of China („PRC“), or other PRC Person. „PRC Person“ is generally defined as a natural person, residing in the People's Republic of China, or any entity organized or incorporated under the laws of the People's Republic of China.

You are not eligible and you are not to purchase any QUIK tokens if you are a citizen or resident (tax or otherwise) of the Republic of India or India, or any entity organized or incorporated under the laws of the Republic of India.

Furthermore because of current regulatory uncertainty and before additional information is publicly released by the Platform on the matter, green card holders of the United States or citizens or residents (tax or otherwise) of the United States of America, Singapore, India or China, or other U.S., Singapore Person or PRC Person, are not eligible to register for the Token Swap. That limits the ability of U.S., Singapore, PRC persons to utilize QUIK tokens and participate in the future development of the platform as well as in the distribution of proceeds.

NO ADVICE

No information in Quik.com website or Whitepaper should be considered to be business, legal, financial or tax advice regarding Quik.com, the Distributor, the QUIK tokens, the QUIK Token Swap, the QUIK Platform, and the QUIK.com marketplace (each as referred to in the Whitepaper). You should consult your own legal, financial, tax or other professional adviser regarding Quik.com and/or the Distributor and their respective businesses and operations, the QUIK tokens, the QUIK Token Swap, the QUIK token sale, and the QUIK token airdrop, the QUIK.com marketplace (each as referred to in the Whitepaper). You should be aware that you may be required to bear the financial risk of any purchase of QUIK tokens for an indefinite period of time.

Limitation of Liability

In no event shall Quik.com, members of Quik.com staff, contractors, or volunteers be liable for:

Any lost profits, lost savings or incidental, indirect, special or consequential damages, arising out of your use or inability to use the services or products offered by Quik.com or the breach of any of these Terms by any third party;

Any security risk such as hacker attacks, loss of password, loss of private key, or similar.

Mistakes or errors in code, text, or images involved in the swap.

Any losses resulting from the volatility in pricing of QUIK Tokens in any countries and cryptocurrency exchanges.

This website and the QUIK tokens are provided on an "as is" basis and without any warranties of any kind, either expressed or implied. You assume all responsibility and risk with respect to your use of the website and purchasing of any amount of the QUIK tokens and their use. If applicable law does not allow all or any part of the above limitation of liability to apply to you, the limitations will apply to you only to the extent permitted by applicable law.

By acquiring QUIK Token and to the extent permitted by applicable law, the buyer agrees not to hold QUIK.com, QUIK Token or any employee or contractor of QUIK liable for any losses or damages arising out of or in any way connected to the buyer's failure to properly secure the private key to the wallet containing their QUIK Tokens: hacker's attacks, stolen devices, loss of passwords, etc.

No Liability

Quik.com and/or the Distributor does not make or purport to make, and hereby disclaims, its liability for:

- (a) any person participating in the Crowdsale/Token Sale/Token Distribution/Token Pre Sale/Startup Program, in violation of any anti-money laundering, counter-terrorism financing or other regulatory requirements that are imposed in any jurisdiction;
- (b) any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this Whitepaper.

Representation & Warranties by you

By accessing and/or accepting possession of any information in Quik.com Whitepaper or such part thereof (as the case may be), you represent and warrant to QUIK Tokens and/or Quik.com (the Distributor), as follows:

(a) you agree and acknowledge that the QUIK tokens do not constitute securities in any form in any jurisdiction;

(b) you agree and acknowledge that this Whitepaper or website does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of this Whitepaper or Quik.com website;

(c) you agree and acknowledge that no regulatory authority has examined or approved of the information set out in this Whitepaper or Quik.com website, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this Whitepaper or Quik.com website to you does not imply that the applicable laws, regulatory requirements or rules have been complied with;

(d) you agree and acknowledge that this Whitepaper or Quik.com website, the undertaking and/or the completion of the QUIK Token Swap, or future trading of the QUIK tokens on any cryptocurrency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the Quik.com platform and/or the Distributor, the QUIK tokens, the QUIK Token Swap, the QUIK Token Sale, and the QUIK Startup Program (each as referred to in this Whitepaper);

(e) the distribution or dissemination of this Whitepaper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to Quik.com and/or the Distributor;

(f) you agree and acknowledge that Quik.com reserves the right to conduct "know your customer" exercise and any other kind of customer due diligence on purchasers at any time (including after the close of the Crowdsale/Token Sale/Pre Token Sale/Startup Sale). If the Distributors discovers that the purchaser of QUIK Tokens violate this Agreement or any Anti Money laundering, counter-terrorism financing or other regulatory requirements, purchase of QUIK Tokens under the Crowdsale shall be invalid with retrospective effect and the Distributors shall be entitled to immediately terminate this Agreement with the Purchaser, deny access to the Crowdsale, reject delivery of any QUIK Tokens.

(g) you agree and acknowledge that in the case where you wish to purchase any QUIK tokens, the QUIK tokens are not to be construed, interpreted, classified or treated as:

(i) any kind of currency other than cryptocurrency;

(ii) debentures, stocks or shares issued by any person or entity (whether Quik.com and/or the Distributor)

(iii) rights, options or derivatives in respect of such debentures, stocks or shares;

(iv) rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;

(v) units in a collective investment scheme;

(vi) units in a business trust;

(vii) derivatives of units in a business trust; or

(viii) any other security or class of securities.

(h) you are fully aware of and understand that you are not eligible to purchase any QUIK tokens if you are a citizen, resident (tax or otherwise) or green card holder of the United States of America or a citizen or resident of the Republic of Singapore or a citizen or resident of People's republic of China or a citizen or resident of Republic of India;

(i) you have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology;

(j) you are fully aware and understand that in the case where you wish to purchase any QUIK tokens, there are risks associated with Quik.com and the Distributor and their respective business and operations, the QUIK tokens, the QUIK Token Swap, the QUIK Pre Token Sale, and the Quik.com Marketplace (each as referred to in the Whitepaper);

(k) you agree and acknowledge that neither Quik.com nor the Distributor is liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you; and

(l) all of the above representations and warranties are true, complete, accurate and nonmisleading from the time of your access to and/or acceptance of possession this Whitepaper or such part thereof (as the case may be);

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this Whitepaper or Quik.com website, statements made in press releases or in any place accessible by the public and oral statements that may be made by Quik.com and/or the Distributor or their respective directors, executive officers or employees acting on behalf of Quik.com or the Distributor (as the case may be), that are not statements of historical fact, constitute "forward-looking statements". Some of these statements can be identified by forward-looking terms such as "aim", "target", "anticipate", "believe", "could", "estimate", "expect", "if", "intend", "may", "plan", "possible", "probable", "project", "should", "would", "will" or other similar terms.

However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding Quik.com's and/or the Distributor's financial position, business strategies, plans and prospects and the future prospects of the industry which Quik.com and/or the Distributor is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to Quik.com's and/or the Distributor's revenue and profitability, prospects, future plans, other expected industry trends and other matters discussed in this Whitepaper regarding Quik.com and/or the Distributor are matters that are not historic facts, but only predictions.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of Quik.com and/or the Distributor to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others:

(a) changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which Quik.com and/or the Distributor conducts its respective businesses and operations;

(b) the risk that Quik.com and/or the Distributor may be unable or execute or implement their respective business strategies and future plans;

- (c) changes in interest rates and exchange rates of fiat currencies and cryptocurrencies;
- (d) changes in the anticipated growth strategies and expected internal growth of Quik.com and/or the Distributor;
- (e) changes in the availability and fees payable to Quik.com and/or the Distributor in connection with their respective businesses and operations;
- (f) changes in the availability and salaries of employees who are required by Quik.com and/or the Distributor to operate their respective businesses and operations;
- (g) changes in preferences of customers of Quik.com and/or the Distributor;
- (h) changes in competitive conditions under which Quik.com and/or the Distributor operate, and the ability of Quik.com and/or the Distributor to compete under such conditions;
- (i) changes in the future capital needs of Quik.com and/or the Distributor and the availability of financing and capital to fund such needs;
- (j) war or acts of international or domestic terrorism;
- (k) occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of Quik.com and/or the Distributor;
- (l) other factors beyond the control of Quik.com and/or the Distributor; and
- (m) any risk and uncertainties associated with Quik.com and/or the Distributor and their businesses and operations, the QUIK tokens, the QUIK Token Swap, the QUIK Token Pre Sale, and the QUIK.com Marketplace (each as referred to in the Whitepaper).

All forward-looking statements made by or attributable to Quik.com and/or the Distributor or persons acting on behalf of Quik.com and/or the Distributor are expressly qualified in their entirety by such factors. Given that risks and uncertainties that may cause the actual future results, performance or achievements of Quik.com and/or the Distributor to be materially different from that expected, expressed or implied by the forward-looking statements in this Whitepaper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this Whitepaper or website. Neither Quik.com, the Distributor nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of Quik.com or QUIK Token and/or the Distributor will be as discussed in those forward-looking statements. The actual results, performance or achievements of Quik.com or QUIK Token and/or the Distributor may differ materially from those anticipated in these forward-looking statements.

Nothing contained in this Whitepaper or website is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of Quik.com and/or the Distributor. Further, Quik.com and/or the Distributor disclaim any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.
